***Reissue Applications***

1. The reissue declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

In the declaration, applicants' fail to identify specific changes or amendments to claim 28. Merely stating that the patent "may" be partly inoperative or invalid by reason of the patentee claiming more than the patentee had the right to claim due to failure to submit a prior-art article, does not clearly and specifically identify at least one error because it does not identify how the limitations of claim 28 are anticipated by the cited article.

2. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.

3. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

4. The applicants' should include any additions that were made by a Certificate of Correction to the original patent grant in the reissue application without underlining or bracketing.

5. Claims 1-28 are rejected as being based upon a defective reissue oath or declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath or declaration is set forth in the discussion above in this Office action.
